

Summer Assignments for AP Studio Art: Drawing

ASSIGNMENT Part I:

You will complete a minimum of 3 projects over the summer, as your AP Studio Art class preparation. These assignments will be due the first day of class. You will receive a major grade for your summer work. It is your choice as to which assignments you complete from the list to follow. Pieces should be between 9" x 12" and 24" x 36" in size – the assignments are about quality, not quantity. Work with the size paper that is more comfortable to you. You may use any drawing or painting medium of your choice. You are encouraged to explore media that you have not used before.

PROJECTS:

- A self-portrait that expresses a specific **mood**: Think about the effects of color and how its' use can help to convey the individual mood. You may use any style (realism, cubism, expressionism, etc.). Do some research online or at area museums about different artist's self-portraits and the styles and techniques they used to create them.
- Still life arrangement that consists of 3 or more **reflective (glass or metals are good)** objects: Your goal is to convey a convincing representation.
- A drawing of an unusual interior: For example, you can draw looking inside of a closet, cabinet, refrigerator, inside of a drawer, inside your car, under the car's hood, etc.
- A still-life arrangement of your family members' shoes: You should include at least three shoes - go for interesting shape, design, texture, color. Set them in an interesting composition.
- A close-up drawing of a bicycle/tricycle from an unusual angle: Do not draw the bicycle from the side! (note: a few art schools still require a drawing of a bicycle in your portfolio)
- Buildings in a landscape: Do a drawing on location. Look for a building or spot in your neighborhood that is part of your neighborhood's identity. It could be a fire house, restaurant park, church or any other building or place that you frequent or pass by often and would miss seeing if it were torn down. Use correct perspective techniques.
- Expressive landscape: Locate a landscape near your home or use a photograph **you** have taken of a landscape – you can also use multiple sketches or photos of different landscapes to create a unique one (it is best to work from an actual subject, so try to do this outdoors, looking at the actual landscape). Use expressive color to draw that landscape to express a mood or feeling.
- Self-Portrait: Create a self-portrait that is done by looking at your reflection in an unusual reflective surface – in other words, something other than a normal mirror. This could be a metal appliance (toaster, blender), a computer monitor, a broken or warped mirror, etc.

- Café drawing (or any other local hangout): Go to a place where you can sit and sketch for a long period of time. In your drawing, capture the essence of this place (local eatery/café, bookstore, mall, etc.) by drawing the people and places you see.
- Action portrait: Have a friend or family member pose for you doing some sort of movement (jump roping, walking, riding a bike, walking down stairs, etc.). Capture the entire sequence of their action in one piece of artwork. How will you portray movement in your work? Look at “Nude Descending a Staircase” by Dada artists Marcel Duchamp to see an example of an action painting.

ASSIGNMENT Part 2:

Take photographs over the summer that reflect the elements of art and principles of design. These photographs should be original works that you take to document your experience. You should have 5 photographs for each Principle of design listed below. These photographs should be placed in a Google drive document that can be shared with me the first day of class. Make sure you specify what Principle is represented in your photograph.

Balance
Emphasis
Movement
Pattern
Rhythm
Unity
Contrast

GETTING REGISTERED AT THE COLLEGE BOARD WEBSITE:

Just as soon as possible, register at www.collegeboard.com!!! Here you will find information about AP Studio Art classes, the exam, scoring rubrics used, and examples of past student work in each of the portfolio areas.

- From the www.collegeboard.com homepage, click on the “For Students” tab
- Under “My organizer” you can create a free user account, and you can use this account to access information about any AP exams and classes
- Under the “College Board Tests” section, you can click on “AP”, which will take you to the AP homepage.
- Here is a direct link to the AP subjects homepage where you will find links to all of the AP course descriptions:
<http://www.collegeboard.com/student/testing/ap/subjects.html>
- Here is a link to the Studio Art homepage:
http://www.collegeboard.com/student/testing/ap/sub_studioart.html?studioart

The AP Program offers three portfolios: Drawing, 2-D Design, and 3-D Design.

1. **Sustained Investigation** (60% of exam score)
For all three portfolios, students will submit images and writing to document their inquiry-guided investigation through practice, experimentation, and revision:

- 15 digital images that include works of art and design and process documentation.
 - Typed responses to prompts, providing information about the questions that guided their investigation and how they practiced, experimented, and revised, guided by their questions.
2. **Selected Works** (40% of exam score)
- For all three portfolios, students will submit works of art and design and writing to demonstrate skillful synthesis of materials, processes, and ideas:
- For AP 2-D Art and Design and AP Drawing: 5 physical works or high-quality reproductions of physical works with written responses on paper describing the materials, processes, and ideas used.
 - For AP 3-D Art and Design: Digital images of 5 works (2 views of each) with typed responses describing the materials, processes, and ideas used.

Keep in Mind

- Your portfolio may include work that you have done over a single year or longer in class, on your own or in a class other than high school such as one at a museum.
- If you submit work that makes use of photographs, published images, and/or other artists' works, you must show substantial and significant development beyond duplication. This may be demonstrated through manipulation of the formal qualities, design, and/or concept of the original work. It is unethical, constitutes plagiarism, and often violates copyright law to simply copy an image (even in another medium) that was made by someone else.
- Your portfolio will be evaluated by a minimum of three and a maximum of seven artist-educators. Each of the three sections is reviewed independently based on criteria for that section, and each carries equal weight.
